

Managing Procedural Training

Workshop on Accelerator Operations

April 14, 2010

Karen Nuñez [knunez@lbl.gov]

Advanced Light Source

Lawrence Berkeley National Lab, U.S.A.

- ALS Background
- Why do we need procedures?
- Role of the ALS Procedures Center
- Procedure Training - Who, when & how?
- Concerns in Procedure Training
- Procedures Training Database
- Training Trends
- Questions & Answers

- Construction Completed 1993
- Third-generation light accelerator
- Top-off mode: 500mA / 1.9 GeV
- 51 beamlines
- Total ALS Staff: 185
- Operations Staff
 - 8 Accelerator Operators (24/7) – accelerator and shielding configuration control
 - 2 Floor Operators – beamline and shielding configuration control
 - 2 Cross-trained as AFO (Accelerator/Floor Op.)
- Visiting Researchers/Users:
 - 1900+ per year and growing
- ALS Website: www.als.lbl.gov

To provide written instructions when operations are:

- Infrequent
- Complex
- High consequence / Safety-critical
- Frequently changing

and because personnel either turnover, retire, or forget

How did you fix this
the last time?

To ensure that procedures are:

- **Current** - Reviewed within past 3 years?
- **Accurate** - Does it reflect present practice?
- **Consistent** - Does it have standard structure, language & format?
- **Clear**
 - Are the hazards clearly identified with controls?
 - Do the instructions make sense? Need pictures, checklist, or form?
- **Accessible**
 - Is it available on ALS Procedures website?

- Presently 360 active procedures
- Only active procedures are on the website

List of ALS Operating Procedures

Click on the procedure number to download a PDF document of that procedure.
 For more information contact the [ALS Procedures Center](#), 80-160, 486-6535.
 *indicates LOTO procedures that require an annual [LOTO Inspection](#) during performance

Procedures Groups

- [ALS Global \(ALS\)](#)
- [Beamline User & Floor Operator \(BL\)](#)
- [Controls \(CS\)](#)
- [Elec Coordinators \(EC\)](#)
- [Elec Eng \(EE\)](#)
- [Elec Maintenance \(EM\)](#)
- [Health Physics \(HP\)](#)
- [Insertion Devices \(ID\)](#)
- [Mech Techs \(MT\)](#)
- [Accelerator Operations \(OP\)](#)
- [Power Supply \(PS\)](#)
- [Radio Frequency \(RF\)](#)
- [Survey & Alignment \(SA\)](#)
- [User \(US\)](#)

Checklists & Tests

- [EPS Interlock Tests](#)
- [Key-enable Checklists](#)
- [RSS/Interlock & Survey Tests](#)

ALS (Global) Procedures

- [ALS 01 01 Procedure Training and Documentation](#)

| PROCEDURE | Page 1 of 8 |
| Number: | ALS 01-01 |
| Revision: | Rev. 3 |
| Issue Date: | October 17, 2008 |
| Review Period: | 3 years |
| Supersedes Issues: | Rev. 2 |

| | | | | | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|----------------|------|-------------|------|
| Title: Procedure Training and Documentation | | | | | |
| Section where used: (List all sections/groups that will use this procedure) ALS Section Leads, ALS Users Office, ALS ES&H, Experiment Set-up Coordination, Floor Operations, and Beamline Scientists | | | | | |
| Type of Procedure: (Administrative / Technical) Administrative | | | | | |
| Prepared by | Date | Reviewed by | Date | Approved by | Date |
| Tennessee Gock | | Rick Bloemhard | | David Robin | |
| Karen Nuñez | | Warren Byrne | | | |
| | | Jim Floyd | | | |
| | | Ken Woolfe | | | |

| No. | Date | Pgs. Affected | Type of Change | Brief Description of Revision |
|-----|----------|----------------|----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 | 6/29/93 | 1, 2, Appen. I | -- | Pg. 1: Training in revised procedures and destroyed previous issues added to SCOPE. Pg. 2: Step 4 in Sect. 5.0 expanded. Appendix: Revision check box and statement added to Instructor's Signature box. |
| 2 | 9/23/96 | 1-3 | -- | Pg. 1: Sec. 1.0 revised for other areas, participant documentation; Sec. 2.0, 2nd and 3rd sentences new; Sec. 3.0, references updated; Pg. 2: Sec. 4.0, step [1] deleted and moved to Sec. 2.0, Pg. 2-3: Sec. 5.0 steps [1]-[4] revised for clarity, step [5] new; Appendix from Rev. 1 remains valid. |
| 2 | 9/23/99 | -- | -- | Renewed for 3 yrs. following relevancy review |
| 2 | 9/23/02 | -- | -- | Renewed for 3 yrs. following relevancy review |
| 2 | 9/23/05 | -- | -- | Renewed for 3 yrs. following relevancy review |
| 3 | 10/17/08 | 1-8, Appen.I | Major | Changed title to include "Training", updated signature block; changed Sections Where Used from All Areas to Specified Groups; added info on the ALS Procedures Training Database throughout the Procedure; rewrote Procedure to add Sections 5.1, -5.4 to cover types of training, guidelines for selecting training for staff, training communication and documentation for ALS staff and BL Scientists. |

1.0 PURPOSE
 To provide a uniform method for communicating, delivering, and documenting training in the Conduct of Operations Procedures and for other areas or topics where participant documentation is required.

For Procedure Training:

- **Notification**
 - To inform supervisors of a new procedure or revision that requires training
- **Guidance**
 - To recommend what form of training to use and provide overview on changes made
- **Course Development**
 - To work with technical experts to create online training and testing
- **Records**
 - To maintain training records
- **Compliance**
 - To ensure supervisors maintain group training

- Training requirements must be established for individuals* working at the accelerator facility
- whose activities could affect safety and health conditions, or
 - whose safety and health conditions could be affected by facility activities.
- (Safety of Accelerator Facilities, DOE 420.2B)

*Includes the following:

- ALS Operations Staff
- Technicians
- Engineers
- Beamline Scientists and Staff
- Beamline Users
- Administrative Staff
- Vendors / Contractors

When

- For new procedures/changes to existing procedures
- Staff changes and new employees

How

- Supervisor is responsible and decides method of delivery
- Types of Training
 - **Read Only** - most commonly used for minor changes to procedures
 - **Qualification** - for major changes for technical procedures; e.g., lecture, walk-through, testing
 - **Online courses** - helpful for large groups, for ease of training record-keeping and for retraining

- Keeping up with frequent review periods
- Staying current and tracking training completion
- Scheduling training for shift workers
- Reducing paperwork & data entry
- Making training less ‘painful’ to do

- Set up functional groups and assign required procedures to groups
- Maintain training records
- Track training completion

ALS Procedures Database

LAWRENCE BERKELEY NATIONAL LABORATORY

This site is best viewed at 1024x768 or higher and is optimized for Mozilla, Firefox and Internet Explorer running on Windows XP

Background:
 Welcome to the ALS Procedures Database. The ALS Procedures Database is an Intranet product, available to all ALS users within the Lawrence Berkeley Lab. For security reasons, a user must have a LDAP login to utilize this system.

-  Home
-  Individual Training Profile ▶
-  Training Queries By ▶
-  View Procedures
-  My Groups
-  Training Credit
-  Administration ▶
-  Help
-  Logout

- There are several options to view and run reports
- Example of the training groups created

The screenshot shows the home page of the ALS training system. The Berkeley Lab logo is in the top left. A navigation menu on the left includes: Home, Individual Training Profile, Training Queries By (selected), View Procedures, My Groups, Training Credit, Administration, Help, and Logout. The 'Training Queries By' menu is expanded to show options: Division (Bar Chart), Group (Table) (highlighted), Supervisor (Pie Chart), Procedure (Table), and Expired Training. A graphic of a person at a computer is in the center, with the text 'This site Mozilla,' to its right. At the bottom, it says 'Website developed by the'.

The screenshot shows a dropdown menu for 'Training Group' in a web application. The menu is open, showing a list of training groups. The 'Obligation Type' is set to '--All--'. The 'Type of Change' column is visible but empty. The training groups listed are:

| Training Group | Obligation Type | Type of Change |
|----------------------------------------|-----------------|----------------|
| --Select-- | --All-- | |
| ALS Operations Supervisors | | |
| Accelerator Operator 1 | | |
| Accelerator Operator 2 | | |
| Accelerator Operator Safety Procedures | | |

- Increase online training
 - No need to schedule training
 - Online exam tool to assess understanding
 - Training credit automated (less paperwork)
- Walk-through observations
 - Observation by person outside group
 - Important for safety-relevant procedures
- More cross-training staff

Thank you!
